Saveo Scan provides a 2-year limited warranty on SAVEO-RGDPTL-S12D-24G.. This warranty does not cover any product which has been subject to improper use, neglect or unauthorized repair or installation. This warranty does not cover consumable parts. (Cables & batteries are consumables.)

Safety information

- * Don't put scanner in places of excessively high temperature, such as exposure to direct sunlight
- * Don't use scanner in extremely humid conditions or in conditions of extreme temperature change
- * The rechargeable battery is permanently built into the product and cannot be replaced.
- * Never damage the rechargeable battery. Damaging the casing of the rechargeable battery might cause explosion or fire!

Connecting via 2.4Ghz Wireless

Getting Started: Plug the Cradle to a USB port on your computer.

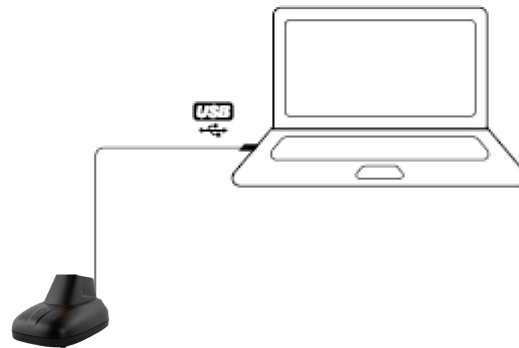

Please Note: If you use US keyboard, It's plug and play. If you use other type of keyboard, please refer to "keyboard language" at the bottom of this page to configure the keyboard language before using

*RF 2.4G Transmit

The cradle contains the in-built 2.4Ghz Long-Range Wireless Receiver. The unit is a "Plug & Play" HID Device and does not require installation of a driver.

Connect the Cradle to your computer with the included USB cable

Scanner will appear as an external keyboard.

Once "Connected" is displayed, your device is paired to the scanner. Your scanner is now ready to use.
